Sprezza à Sprezzatura

THE FASHIONABLE ART OF NONCHALANCE

A term defined in the Renaissance that simply means
doing something extremely well without showing effort.
A main synonym would be ‘grace’.
It also can apply to not trying too hard to acheive something.

It was popularized in Castiglione’s book of the Courtier,
stating it was a necessary trait for a perfect courtier.

The original Mojito is said to be called a Draque Drak or Drac. Named after Francis Drake who was set out to plunder the Spanish cities in the New World, in the name of Queen Elizabeth I.

Moscow Mule € 12

Belvedere Vodka - Lime -
Ginger Beer

Created in the 40's, legend has it that 2 men joined forced because their product wasn't selling very well. Combining the 2 products in a copper mug with the addition of a bit of lime, made it popular again.

Sprezza 75 € 13

Sweet Vermouth - Lemon -
Raspberry - Champagne

Our twist on the 'French 75', which thanks his name to the WWI French 75 millimetre light field gun. Capable of firing 15 rounds per minute and very portable, the French 75 gun was the mainstay of the French during WWI.

Silver Fizz € 12

Copperhead Gin - Lemon -
Simple Syrup - Eggwhite

With the addition of eggwhite, this cocktail is a twist on the classic Gin Fizz. The first written recipe of this can be found in Jerry Thomas' bartenders guide in 1876.

History of Copperhead

THE ALCHEMIST'S GIN

COPPER HEAD

Copperhead was launched in May with a big party

Distribution started in June 2014

Although summer season had already started.
Copperhead experienced a swift take-off

The Belgian distributor Jet Import
(Fever-Tree, Corona, Red Bull, …) experienced an immediate high demand and called it later on *"it's best selling new product ever"*

Numbers:
Biggest launch of new Belgian spirit brand
60.000 bottles sold *(June-March)*
200 cases per week
Continuous growth

Marketing activities were set up with a limited budget:
PR agency generated free publicity in magazines and online media

Social media platform was enrolled

The Copperhead Experience:
Organizing different events to educate consumer about **Copperhead** and to create awareness.
Own events to build brand image.
Copperhead tastings.

Types & Regions of Whisky

Scotland

Higland: Subtle and floral with heathered-honeyed tones, although there a touch of peat smoke in coastal malts.

Lowland: The last surviving lowland distilleries maintain the tradition of light, estery, grassy flavour notes.

Campbeltown: Mainly known for their smoky, oily character. There used to be 34 distilleries in Campbeltown. Today only 3 remain.

Speyside: Known for there fruity, nutty, even spicy character. Speysides offer a wide spectrum of flavours, with something for every palate.

Islay & Islands: Salty, peated smoke is the signature flavour note, ranging from subtle Lapsang Souchong to the smokefest of a beach bonfire.

Ireland

For an industry that, until recently, had only three operational distilleries, Irish whiskey offers a richly varied array of styles and production methods. Double distillation, triple distillation - and a unique style of pot still whiskey that owes its genesis to a tax dodge.

United States of America

Bourbon: Produced using a mash of 51%-80% corn, and aged in new, charred white-oak barrels

Rye: Made from a mash of at least 51% rye and aged in new charred-oak barrels, these are spicier and fuller-bodied than bourbons

Tennessee: Made from a mash of at least 51% corn and aged in new charred-oak barrels, these differ from bourbon in two ways: they must be made in the state of Tennessee, and generally use the Lincoln County Process, whereby the whiskey is filtered through maple charcoal before bottling.

Japan

Less than a century old and with only a handful of distilleries, Japanese whisky has moved fast to develop its own unique style - or rather styles - and has met with growing acclaim in the West in recent years. From light and precise to smoky and fat, its malts and blends offer a world of whisky in miniature.

India

India is ostensibly a huge whisky-drinking nation - the biggest of them all if you look at the bare consumption figures - but nearly all the domestic 'whisky' produced here is dominated by molasses-derived spirit (and therefore, according to EU legislation, not whisky at all).
